

VERO BEACH, FLORIDA; March 21, 2014

FOR IMMEDIATE RELEASE

PATRIOT MISSION has launched an initiative to train, network and deliver real opportunities to 5000 veterans who want to learn how to become self-employed in 2014.

Here are a few of the reasons why:

- The Veteran unemployment rate is completely unacceptable
- Veterans have great leadership skills
- We don't have to explain patriotism to veterans
- Most veterans recognize America is facing challenges and they want to help
- Veterans are mission driven and want to **MAKE AMERICA STRONG AGAIN**

There is a lot of focus on big companies helping veterans get jobs, which is a good thing. At the same time, grassroots capitalism can help many more veterans create self-employment income faster. We also know learning the ropes of becoming self employed is a great step toward starting an enterprise.

According to data from the U.S. Census Bureau, in the private sector workforce, veterans are 45 percent more likely than those with no active-duty military experience to be self-employed. Nearly one in 10 small businesses nationwide are veteran-owned. Collectively, these 2.4 million small businesses employ almost 6 million Americans and generate more than \$1 trillion in receipts.

We are ready to fill the pipeline with veterans who want to join our National Leadership Team and become productive in the civilian workforce. We have designed our systems to integrate our veterans alongside experienced entrepreneurs. This will make sure they get the right training to meet their personal goals and help PATRIOT MISSION build BOLD Leadership teams in every county, independent city and parish in America.

While many veterans are financially stable, a big percentage of the younger veterans are facing serious financial hardships. These brave Americans have experience dealing with tough situations and they are willing to fight for their futures. We want to help them offset the training costs through our PATRIOT GRANT Program!

Through membership on our National Leadership Team, our goal is to help 5000 Veterans become self-employed in 2014. This is one important way we are **MAKING AMERICA STRONG AGAIN!**
