

**VERO BEACH, FLORIDA; December 5, 2013**

**FOR IMMEDIATE RELEASE**

**PATRIOT MISSION Announces first National Leadership Retreat; June 19-22, 2014 in Boston, MA**

PATRIOT MISSION is a Leadership Development Company that champions grassroots capitalism, county-by-county. A central element in its mission to "Rebuild America through the Power of Small Business™" is to provide experiential learning events that combine historical significance, mentoring and fun. Next June 19-22, 2014, PATRIOT MISSION will host its first **National Leadership Retreat** in Boston, Massachusetts.

The Retreat will include a series of world-class speakers who will focus on major turning points in America's history, whose outcome was not a foregone conclusion. Subject matter experts on those events will illustrate key themes in the nation's ultimate success and how lessons learned during those challenging times can be applied by leaders committed to rebuilding America today.

Steve Olds, PATRIOT MISSION's Founder said, "*We selected Boston for our first National Leadership Retreat because it is where America began. Our program will explore the Pilgrims arrival in Plymouth as well as pivotal events during the Revolutionary War Period on the Freedom Trail.*" The venue in Downtown Boston will be announced soon as well as a growing list of confirmed speakers.

The PATRIOT MISSION Vision is to BUILD **BOLD** Leadership teams in every county, independent city and parish in America in record time. The most important component of the National Leadership Retreat will be strengthening strong core leadership teams that span multiple generations. According to Olds, "*Time is of the essence and unless we develop a multi-generational, effective team of BOLD Leaders who can lead their communities in crucial ways, the likelihood of rebuilding America is fading.*"

These teams will be trained and inspired to play a major role in executing the aggressive strategy Olds maps out in his recent bestselling book, **The PATRIOT MISSION Story; A BOLD Blueprint to Rebuild America through the Power of Small Business**. The blueprint includes a well organized plan to attract and include those who may be retired and want to support capitalism or mentor young people who wish to pursue a career in small business. The message is also applicable to many in the work force who are seeing their hours cut or jobs eliminated altogether.

**The PATRIOT MISSION Story** is published by PATRIOT MISSION PRESS, a wholly owned subsidiary of PATRIOT MISSION, Inc., a Florida based for-profit corporation.
